

RevStart Company Profile

Incepted in the year 2017 as a Chapter 8 Company, RevStart is creating a nurturing and supportive ecosystem for emerging ventures, by providing quality **Co-Working, Incubation, and Acceleration services**. Dedicated towards helping start-ups achieve business growth, RevStart is founded & promoted by **Ishan Singh**, a serial entrepreneur mentor and investor with 20 years of experience that included a role as Marketing Head at WNS which listed on the NYSE in 2006.

Cutting through the clutter of mushrooming co-working spaces and run-of-the-mill programs, RevStart curates result-oriented programs focused at helping start-ups accelerate their growth curve. RevStart provides selected businesses with tools like access to a large mentor pool, nurturing work environment, exposure to relevant events & a cost-effective office space.

RevStart believes in helping firms establishing business cross geographies and has been actively forging tie-ups with partners in gateway cities like New York, London, Berlin, Singapore, and San Francisco. RevStart has forged strategic alliances and is organizing events with established players in the ecosystem like TiE (The Indus Entrepreneurs) &, HeadStart Network, funding partners like Indian Angel Network, Mumbai Angels, Let's Venture, YourNest, SeedFund, IvyCamp Ventures etc. as well as end users of technology like Bajaj Capital.

RevStart's revenue model stands on two pillars; as co-working space, RevStart rents out physical infrastructure, which include desks for co-working, private cabins and fully furnished office spaces to freelancers & SME's venues for hosting events, trainings, meetings and conferences. Additionally, RevStart gets compensated in advisory equity and fees from startups and SMEs looking for growth acceleration and funding.

Taking forward its legacy of establishing successful enterprises, RevStart is launching its own incubation and acceleration program with a \$2 million commitment from Mr. Ishan Singh, other than the 1,00,000 sq. ft. facility. As part of the mandate, only a select few start-ups will be part of the accelerator. Graduates will be invested into by RevStart's fund. Currently based out of a sprawling 1,00,000 sq. ft facility in Noida, RevStart will also expand its presence to other prominent locations in NCR and other gateway cities. RevStart will establish its own fund, in order to fully support, empower, and nurture impactful startups.
